

Since its inception in 1946, Silliguri Girls' High School has carved a niche for itself in the educational map of Sikkim Town. The objective of educating girls and empowering women in pre- - independence time was a great challenge for this institution and it could be met only with traits like Satya (Truth), Seva (Serve others), Prem (Love), Shraddha (Respect), and Sudar (Beauty) that are the ruling principles of this institute. The school still provides the best learning environment in this entire Northem region with exceptional results and excellent performances in every respect.
